

IN THE CLAIMS:

1 1. (Currently Amended) A settable mixture comprising polybutadiene, a flow-
2 enhancing liquid, and dry [~~particulate material~~] silica sand, the latter having no more than 2%
3 water content and [~~being selected to have a~~] containing Aluminum Oxide to a selected
4 maximum of 2% [~~Aluminium Oxide~~], and [a] Ferrous Oxide to a selected maximum of 1%
5 [~~Ferrous Oxide~~], the percentages being by weight of [~~particulate material~~] the silica sand.

1 2. (Original) A settable mixture according to Claim 1, wherein the flow-enhancing
2 liquid is a flow-enhancing solvent.

1 3. (Canceled)

1 4. (Canceled)

1 5. (Previously Presented) A settable mixture according to Claim 1, wherein the
2 polybutadiene is provided in liquid form.

1 6. (Previously Presented) A settable mixture according to Claim 1, including a re-
2 odoriser.

1 7. (Original) A settable mixture according to Claim 6, wherein the proportion of the
2 re-odoriser within the mixture is between 0.001% and 5% by weight of settable mixture.

1 8. (Original) A settable mixture according to Claim 2, wherein the flow enhancing
2 solvent is a de-aromatised hydrocarbon.

1 9. (Currently Amended) A settable mixture according Claim 1, wherein the
2 ~~[particulate material is silica]~~ sand is of special fraction size in the range of grain size 0.01mm
3 to 0.85mm and is dried to have a maximum 2% water content by weight absorbed from the
4 atmosphere after drying.

1 10. (Canceled)

1 11. (Previously Presented) A settable mixture according to Claim 1, bagged so as to
2 be contained in an oxygen-free atmosphere.

1 12. (Previously Presented) A settable mixture according to Claim 1, including a
2 colourant.

1 13. (Previously Presented) A settable mixture according to Claim 1, wherein the
2 ~~[material]~~ mixture is contained in an oxygen-free atmosphere containing an inert gas.
